Overview of Concept

• Military Problem

– Train the Joint Force for 2014 – 2026:

- Worldwide across ROMO
- Within IA framework and diverse alliances, coalitions
- Rapidly adapting TTPs, LLs to new operational capabilities
- And deterring symmetric enemies while fighting a long war

• Scope

IRREGULAR
Challenges arising from the adoption or employment of unconventional methods by non-state and state actors to counter state opponents — terrorism, insurgency, civil war, etc.

CATASTROPHIC
Challenges involving the surreptitious acquisition, possession, and possible terrorist or rogue employment of WMD or methods producing WMD-like effects

TRADITIONAL
Challenges posed largely by states employing legacy and advanced military capabilities and recognizable military forces in long-established, well-known forms of military competition and conflict

DISRUPTIVE
Challenges emanating from competitors developing, possessing, and employing breakthrough technological capabilities intended to supplant our advantages in particular operational domains
